Job Description

Coda Octopus Martech Limited, based at Osprey Quay, Portland, Dorset, has a requirement for an electronic/electro-mechanical technician with manufacturing experience, to join its multi-disciplined production team.

We are also interested to hear from Electrical/Electronic Engineers with practical hand-on skills who can undertake a dual role combining design with production or testing.

Working on a diverse range of projects for high profile customers in the Defence and Aerospace and Sub-sea industries, our technicians and engineers need to be flexible, adaptable and motivated. Successful applicants will have appropriate training and qualifications plus several years' experience in an electronic/electro-mechanical manufacturing or service and repair environment.

Candidates should have experience in some or all of the following:

Production and Manufacturing

- Electro-mechanical assembly
- Looming, wiring & crimping
- Soldering and PCB assembly
- Mechanical fitting
- System testing
- Fault diagnosis
- Service and repair

As well as a demonstrable practical aptitude, enthusiasm, flexibility and an ability to adapt and learn on the job and are of equal importance. Experience in electronic systems testing would be an advantage, but is not essential. For this role we offer a competitive salary dependent on skills and experience and would be pleased to hear from all candidates that meet the above criteria.

Other Requirements

- Suitability for UK security clearance
- Ability and willingness to travel occasionally in the UK and abroad on company business

In the first instance please apply with you CV and a covering letter.

Job Type: Full-time
