

Technician – Electro-Mechanical/Electronic

Coda Octopus Martech Limited, based at Osprey Quay Portland, near Weymouth, Dorset, has a requirement for an electro-mechanical/electronic technician with manufacturing experience, to join its multi-disciplined production team.

Working primarily on technology sold into the sub-sea industry you will be involved in the service, repair and test of a wide variety systems including electro-mechanical actuators, PC systems, GPS and inertial sensors, and other custom electronic hardware.

In addition you may also be required to work on a diverse range of projects for high profile customers in the Defence and Aerospace, therefore our technicians need to be flexible, adaptable and motivated. Successful applicants will have appropriate training and qualifications plus several years' experience in an electro-mechanical or electronic service/repair or manufacturing environment.

Key Requirements

Candidates should have experience in some or all of the following:

- Electro-mechanical assembly
- Soldering, wiring & crimping
- System testing
- Fault diagnosis
- Service and repair

As well as a demonstrable practical aptitude, enthusiasm, flexibility and an ability to adapt and learn on the job and are of equal importance. Experience in electronic systems testing would be an advantage. For this role we offer a competitive salary dependent on skills and experience and would be pleased to hear from all candidates that meet the above criteria.

Other Requirements

- Suitability for UK security clearance
- Ability and willingness to travel occasionally in the UK and abroad on company business

In the first instance please apply with you CV and a covering letter to hr@martechsystems.co.uk
