

Test, Measurement and Control Solutions for Demanding Applications

## Mechanical Design Engineer

Martech, part of the Coda Octopus Group of companies, based in Weymouth, has a requirement for a Mechanical Design Engineer to join its multi-disciplined design and development team. Preferably an 'all-rounder' with wider engineering and project management skills, the ideal candidate will be able to demonstrate an innovative, creative flair in mechanical design, together with a proven track record of delivering projects on time and to budget.

### Key Requirements

Candidates should have experience in some or all of the following:

- 2D and 3D CAD packages such as Autocad Inventor and Solidworks
- Electro-mechanical systems
- Hands-on mechanical assembly skills
- Design for manufacture
- Project management
- Creation of process specifications and procedures
- Production of deliverable documents and technical manuals

Working on a diverse and ever changing range of projects for high profile customers in the Defence, Aerospace and Subsea industries, our engineers need to be flexible, adaptable and motivated. Successful applicants are likely to have several years' experience in a similar role. As well as a demonstrable technical aptitude, enthusiasm, flexibility and an ability to adapt and learn on the job and are of equal importance. We would be pleased to hear from all candidates that meet these criteria.

### Other Requirements

- Suitability for UK security clearance

In the first instance please apply with you CV and a covering letter to [hr@martechsystems.co.uk](mailto:hr@martechsystems.co.uk)

### About us:

Martech, part of the CodaOctopus Group, is a team of innovators, problem solvers and skilled technologists with extensive expertise in electronics, software and mechanical design and manufacturing, with extended capabilities in sister companies in Edinburgh and Utah USA.

Motivated by customer satisfaction and technical excellence, customer's engineering problems are our challenges. As a team, we strive to not only work to their technical requirements, but to appreciate the overall objectives and needs to ensure we understand the bigger picture, and deliver the best possible solution.

With roots in defence, Martech also works with clients in the aerospace, nuclear power, medical, pharmaceutical, and offshore industries, where design integrity, reliability and robustness are a common thread in 'mission critical' applications. Since 1988, Martech's success has been built upon a reputation for quality and reliability together with and flair for delivering the right solution to the problem. Combined with our manufacturing facility, Martech is ideally equipped to meet the demands of our technology focussed customer base.

Compensation Package commensurate with experience and qualifications.

If you are interested please reply to [hr@martechsystems.co.uk](mailto:hr@martechsystems.co.uk) quoting reference: Martech/ME/2014.
